Mobile Web Content & Development, Database Design & Development of Web, Mobile Application Development, Database Management System, Computer Networking & Internet, Data Mining

ACADEMIC PROJECTS

Pace University, NY

Jan 2015 – Present

- Worked on an application called “Map Out”. A web application that plans your day explicitly and also helps you connect with your friends.
- Worked on responsive websites using SASS technology, CSS3, HTML5, jQuery and JavaScript.
- Worked on a Mushroom Dataset, the intention was to compare 3 classifiers to know their advantages and disadvantages. In this the data was used from the UCI Machine Learning Repository.
- Developed a Client side of a Maze runner game using Java code, Eclipse IDE.
- Worked on a Holographic concept to help students learn through a better online education system.
- Developed front-end using JavaScript, HTML5 and CSS3.
- Worked on an issue of Instability in a Priority Queue, where the static version applies to the concept of memoization and direct-addressing hash tables to array based max heaps to provide stabilization, while the Dynamic version utilized the linked list within a binary search tree to achieve results.

ALPHA NET Technologies, India**May 2012 – June 2012**

- Worked on Human Resource applicant-tracking system called Pro Consultant, which let candidates submit their resume, and allowed an organization to have the complete applicant profiles to evaluate hiring consideration.

EXPERIENCE

SLR INFOTECH, India**Dec 2013 - May 2014**

- Created a webpage called US OPENS, which included comprehensive information about golf.
- Developed the front-end of an e-commerce website for an online retailer.
- Collaborated with the back-end developers to implement the designs and meet the business requirements.
- Utilized Java, Adobe Dreamweaver and Eclipse IDE.

EDUCATION

Masters in Computer Science

Pace University, New York City, NY

Expected graduation July 2016**B.TECH In Computer Science & Engineering**

Punjab Technical University, Punjab, India

Aug 2010 – May 2014
